Architectural Technologist
North Prairie Developments
Saskatoon, SK

Join an Award-Winning Team in One of Canada's Best Places to Live!

About North Prairie Developments:

North Prairie Developments is a dynamic, client-focused team of experienced industry professionals who have designed and developed thousands of residential and commercial properties in Saskatchewan. We pride ourselves on fostering a collaborative and supportive work environment where our team members can learn, grow, and thrive. We are seeking an experienced **Architectural Technologis**t to join our team and play a key role in supporting project development from concept to completion.

About Saskatoon:

Saskatoon is a beautiful and vibrant city that offers all the amenities of a larger urban center while maintaining a welcoming, small-town charm. With its stunning river views, abundant green spaces, and a strong sense of community, it's a fantastic place to raise a family. The cost of living and housing are both affordable compared to larger Canadian cities, allowing for a high quality of life. Saskatoon offers a balanced lifestyle with excellent schools, healthcare, and recreational opportunities, making it an ideal place to call home.

About the Role:

We are seeking a talented and detail-oriented Architectural Technologist to join our team. In this role, you will work under a licensed architect, providing an excellent opportunity to gain supervised experience and work toward your architectural designation. Your focus will be on residential projects, ensuring compliance with building codes while delivering high-quality designs.

Key Responsibilities:

- Contribute to residential projects from design development through to construction
- Create detailed construction drawings and technical documentation using AutoCAD and Revit.
- Conduct research on building materials, codes, and construction methods.
- Ensure compliance with building codes, regulations, and industry standards
- Assist in project coordination and liaise with engineers, contractors, and clients.
- Support the architect in design development, permitting, and construction administration.

Qualifications:

- Architectural technologist diploma or equivalent.
- 2+ years of experience in residential construction.
- Proficiency (5+ years) in CAD software (AutoCAD, Revit, etc.) and other design tools (SketchUp, Adobe Creative Suite).
- Strong understanding of building codes and construction methods.
- Excellent written, and verbal communication skills.
- Ability to work collaboratively in a team environment and manage multiple tasks simultaneously.
- Strong problem-solving skills and attention to detail.
- Enthusiasm for innovative design practices.

Why join us?

- Competitive salary and benefits package.
- Opportunity to work on exciting residential projects with a talented team.
- Supportive and collaborative work environment.
- Career growth and advancement potential.

Grow Your Career with North Prairie Developments!

If you're passionate about residential design and looking for an opportunity to grow your career with an award winning employer in a thriving city, we want to hear from you. Apply today to sherry@apexconsultants.ca with your **cover letter, resume and portfolio** showcasing your Canadian residential design work.
